

High School Girls Hear Talks On How to Dress; Christmas Donations

A special assembly at the high school Friday morning, for the girls, some interesting talks were made on the needs of the girls in organizing to do their best for their country and themselves during the war period.

A TREATMENT FOR NERVES

Woman Tells How Lydia E. Pinkham's Vegetable Compound Helped Her.

West Danby, N. Y.—"I have had nervous trouble all my life until I took Lydia E. Pinkham's Vegetable Compound for nerves and for female troubles and it straightened me out in good shape. I work nearly all the time as we live on a farm and I have four girls. I do all my sewing and other work with their help, so it shows that I stand it real well. I took the Compound when my ten year old daughter came and it helped me a lot. I keep it in the house all the time and recommend it."—Mrs. DEWITT SNYDER, West Danby, N. Y.

Sleeplessness, nervousness, irritability, backache, headaches, dragging sensations, all point to female derangements which may be overcome by Lydia E. Pinkham's Vegetable Compound.

This famous remedy, the medicinal ingredients of which are derived from choice roots and herbs, has for forty years proved to be a most valuable tonic and invigorator of the female organism.

and the displaying of frills and useless decorations.

Miss Hanchey, who presided at the assembly, said that the girls of the school have been united in most of their work, the girls have usually gone in small groups. To accomplish the larger things they, although present in the time of war, she told them, they must have more unity.

Miss Howe's talk was followed by a program by the recently organized El Paso School Piano club, under direction of Francis Russell, teacher of music.

Musical selections were given by Misses Mary Wood, Emma Wheatley and Francis Russell. The program was in charge of Miss Helen Kauter. Miss Lorraine Lacy is president of the Piano club.

Additional contributions from the high school for the Christmas fund of the children in Europe were made Friday.

The members of the high school made a well showing the first day, said A. H. Hanchey, the principal, in that the boys and girls of the high school are interested in things more in keeping with the things that interest everyone. For instance, they substituted for the worth of Liberty bonds last week and they are helping in the food conservation campaign this week. The matter of contributing toys and money for the purchase of toys for the children in Europe is a new thing, although practically every boy and girl in school gave a dollar last week for buying Liberty bonds.

Mrs. G. A. Martin, who had charge of the collection at the high school, said that she was very glad to see the girls of the high school. I will say that I only requested toys when I addressed them at that time our committee had not expected to collect any money from the pupils. However, some of

the principals in the ward schools decided that it would be best to have the party bring money where they could, and the committee, of course, was glad to receive the money, as it can be used for the purchase of toys. I am sure that if the high school boys and girls had been asked to contribute money, they would have given a generous sum. Miss Martin called and her committee were very pleased in their cooperation.
